WHO WE ARE

About Us

Transforming data into actionable intelligence for Zambia and Africa.

Big Five Analytics Limited is a proudly Zambian technology and research company established in January 2022, specializing in data science, machine learning, artificial intelligence, business intelligence, software development, and consultancy services. Registered with the Patents and Companies Registration Agency (PACRA) under Registration Number 120220025980, we are headquartered at Plot No. 3697, Mpulungu Road, Olympia Park, Lusaka, Zambia.

Our name is inspired by the iconic Big Five of the African wilderness, symbolizing strength, resilience, wisdom, agility, and unity. These powerful qualities define our approach to delivering innovative, reliable, and impactful analytics and AI solutions tailored to the unique needs of the Zambian and African market landscape.

PROUDLY ZAMBIAN

Our Vision & Mission

Driving transformative innovation across the African continent through data-driven excellence.

VISION

Leading Center of Excellence

To become Zambia's leading center of excellence in data science and artificial intelligence, driving transformative innovation across the African continent. We aspire to build a future where data-driven insights empower organizations and governments to make smarter, more impactful decisions that uplift communities and accelerate national development.

MISSION

Innovative & Impactful Solutions

To deliver innovative, reliable, and impactful analytics and AI solutions that address real-world challenges. We are committed to bridging the technology gap in Zambia through cutting-edge data science, hands-on capacity building, and strategic research partnerships that create lasting value for our clients and stakeholders.

OUR PROMISE

At Big Five Analytics, we hold ourselves to the highest standards of professional integrity, technical excellence, and client satisfaction. Every project we undertake is guided by our commitment to quality, innovation, and measurable impact.

WHAT DRIVES US

Core Values

Inspired by the majestic Big Five animals of the African savanna.

THE LION
Leadership

We lead with courage and conviction. We embrace bold challenges, make decisive choices, and take ownership of our work. Our leadership inspires confidence and sets high standards for transformative outcomes.

THE LEOPARD
Agility

In a rapidly evolving technological landscape, we remain nimble and adaptable. We quickly pivot to embrace new tools, methodologies, and industry shifts with precision and accuracy.

THE ELEPHANT
Wisdom

We value deep knowledge and thoughtful analysis. We build robust, stable systems that stand the test of time, combining collective experience with cutting-edge technology.

THE RHINOCEROS
Resilience

We approach every project with tenacity, pushing through obstacles with relentless perseverance. We deliver results even in the most complex and demanding environments.

THE CAPE BUFFALO
Unity

We believe in the power of collaboration and teamwork. Our interdisciplinary team works in unity, combining diverse skills and perspectives to tackle complex challenges. Together, our collective expertise enables us to deliver comprehensive solutions that no single discipline could achieve alone.

WHAT WE OFFER

Our Services

A comprehensive suite of data-driven services designed to empower organizations.

Data Science & Analytics

Predictive modeling and forecasting, data mining and pattern discovery, time-series analysis, visualization dashboards, and business intelligence analytics.

AI & Machine Learning

Natural language processing and chatbots, computer vision systems, recommender systems, AI automation tools, and fraud detection models.

Research & Consultancy

Monitoring and evaluation, impact assessments, policy analysis and research, custom analytical support, and sector-specific advisory services.

Software Development

Web and mobile applications, AI-driven platforms, automated reporting systems, data engineering pipelines, and system integration with APIs.

Capacity Building & Training

Hands-on data science training workshops, programming and coding bootcamps, digital transformation strategy, BI tools and data visualization training, and corporate training programs.
